Defining Failure In The PSMA Era

- PSA Metrics
- Imaging
- How to interpret PSA rises before biopsy is reliable
- Where is the cutoff between unnecessary treatment and missing the boat

Case

- 53 Year old man
- G 3+4 =7, PSA 9, Left sided nodule
- BXT Monotherapy July 2015
- PSA Nadir 0.7 May 2016
- Slow increase to 1.4 September 2016
- 2.2 April 2017
